The Soho, closeup

Special acoustic felt

- The interior felt looks and feels great. It's sound absorbing too ([see demo video](#)).
- -31 db, or 44% noise reduction, from "traffic" to "quiet library" noise levels*.

Fully equipped

- A motion sensor activates the LED spotlight as well as the 2x ultra-silent ventilation fans.
- The fans extract 208 m³ / hour. This means the air in the cabin is refreshed every minute.
- The Soho comes with a socket, USB-A & -C charge ports and a wireless phone charger.

Scratch resistant shelf

- Enough space to place all your gadgets.

*Based on testing where a noise source of 70 decibel ("traffic" per the dB Meter tool) was placed inside the booth, resulting in a reduction to 39 decibel measured from outside of the booth ("quiet library" per the dB Meter tool)

Meeting Pod

Get comfy with colleagues in a Camden pod

- Fully equipped with a LED spotlight (motion sensor) and 4x ultra-silent ventilation fans.
- The fans extract 416 m³ / hour. This means the air in the cabin is refreshed every minute.
- The Camden pods come with a socket and 2x USB charge ports.

The number of recycled plastic water bottles contained in the acoustic felt of one of our office phone booths.

50

The number of trees we'll plant in Madagascar per booth sold. The trees will extract over 15 tonnes of CO2 from the atmosphere over their lifetime.

(we plant trees worth £10 per booth sold via *Ecologi* – [see our impact](#))

2

The number of solar lights we'll donate to families in Zambia per booth sold, resulting in 2 tonnes of CO2 saved by not burning kerosene lamps, while providing 2,000 extra hours of child study time.

(we donate £10 per booth sold to [Solar Aid](#))
